CAAP stands for Community Accountability and Prevention. It is a two-to-five-day intervention program that provides social, emotional and academic interventions for students in grades 6-10.

While at CAAP students follow a structured schedule allowing for regulation, reflection, reteaching, and restoration.

**While at CAAP your student will have opportunities to**

- Participate in both individual and group behavioral & social skill building
- Receive academic instruction and support in their current classes
- Engage in community service projects
- Establish a plan for a successful return to home school

**Student Expectations**

- Students are expected to be safe, be kind, and be responsible while at CAAP. We follow the rules in the District Code of Conduct
- Students who are unable to maintain safety and follow expectations will be dismissed for the remainder of the day

**Things to know prior to coming to CAAP**

- In order to maintain a focused learning environment, students will turn in **ALL personal electronic devices and accessories** (including phones, i-pods, headphones, tablets etc.) and their backpacks when they arrive. Materials will be locked in a secure location and returned at the end of the day.
- In order to establish a safe learning environment, we utilize a metal detector wand upon student arrival into the program.
- Students should bring their school-issued computer and any schoolwork needed to complete academic tasks while attending.

**Family/Guardian Support**

Have a conversation with your child regarding school safety, positive behavior, and healthy problem solving. This allows conflict in the school setting to be solved in a safe and healthy manner. If you need support in this, please call your dean of students or school counselor.

**Follow Up**

Students will meet with the school administration or designee upon return from CAAP to process their learning and plan for a successful reentry into the school. This may include a family meeting.

**If your child is attending CAAP, and you need to reach program staff please call (320) 370-6902**
