7. Has the patient seen a physician within the past 2 years? ☐ Yes ☐ No
   If yes, for what reason? ___
8. Has the patient been hospitalized within the past 2 years? ☐ Yes ☐ No
   If yes, for what reason? ___
9. Has the patient ever had any operations or surgery? ☐ Yes ☐ No
   If yes, what was the reason? ___
   Were there any complications? (describe)___
10. Is the patient pregnant now or possibly pregnant? ☐ Yes ☐ No ☐ N/A
   If yes, when is your due date? ___

Step 5: Review Authorization Information

Children's Dental Services Authorization for Dental Exam and Treatment: I give permission for CDS to provide a dental exam, preventive services, and required restorative care (dental treatment). Specifically I consent to routine dental treatments being performed on my child, including examinations, x-rays, cleanings, fluoride, and plastic sealants. **For the treatment of minor cavities, I consent to the use of silver diamine fluoride (SDF). I am aware that SDF will turn the decayed area of the tooth gray or black in color, I am also aware there is a risk that the use of SDF may not stop the decay, and that the tooth may still require a filling.** I understand that CDS staff may be in contact with me to obtain additional informed consent to provide restorative procedures such as fillings, crowns, extractions and other treatments if needed. I understand that with any procedure there are associated risks, but that these risks are often outweighed by the benefits of such treatment. **Risks of not having treatment done include the following:**

1. Tooth ache, tooth infection, or dental abscess that may cause pain, fever, swelling, and/or spread of infection to other parts of the body that can lead to potentially life-threatening complications.
2. Difficulty chewing and/or maintaining good nutrition.
3. Gum inflammation.
4. Development of cyst in gum tissue.
5. Facial swelling.
6. Tooth sensitivity to hot or cold.
7. Ongoing pain, bad breath, unpleasant taste in mouth and difficulty opening mouth.
8. Loss of teeth.

I also understand that while rare, there are certain inherent and potential risks in any treatment plan or procedure, and that such operative risks include but are not limited to the following:

1. Occasional bleeding of the gums that can last up to 12 hours.
2. Swelling of the face or pain or jaw stiffness that can last for several days.
3. Injury to adjacent teeth, tissue, or fillings.
4. Fracture of the jaw and necessity to surgically treat the fracture.
5. Injury to the nerve underlying the lower teeth, resulting in numbness, tingling, pain, or other sensory disturbances to the lip, cheek, chin, gums, teeth, and tongue.
6. Unexpected reaction to the anesthetic.
7. Infection in the tooth socket that can be painful, tender, and swollen if a permanent tooth is extracted.
8. Biting lip while still numb.

Children's Dental Services carefully follows Centers for Disease Control's health and safety guidelines relating to COVID-19.

Step 6: **Sign and Date Consent Form**

I give permission for CDS to bill my insurance for any services provided to the individual listed for care and I understand that I am responsible for any amount not covered by the insurance. I give permission for CDS to share the patient's oral health information with the school and the school permission to share information necessary for the provision of care to the patient, to provide the most comprehensive care possible. I also give permission for the school to share student information with CDS (including class schedules and data). This consent form is valid for one year from the date signed unless revoked in writing to CDS. If I had any further questions about the risks and benefits of treatment or alternate treatment options I have contacted a provider at CDS to ask such questions and they have been answered adequately. I have had adequate time to make the decision to give consent freely. The medical history provided is accurate to the best of my knowledge. If my medical history changes I will inform CDS.

___ ___

Parent/Guardian (or patients 18 years of age or older) Signature **Date**

**Please note: If you or your child is seen by one of CDS' hygienists this does not take the place of an exam; we recommend a full examination with the dentist within 6 months if he/she has not already done so.
