

District 742
St. Cloud Area Schools
Local World's Best Workforce Plan
2013-14

The World's Best Workforce Plan (state statute, section 120B.11) is a comprehensive, long-term strategic plan to support and improve teaching and learning with the ultimate goal of creating the world's best workforce. It is intended to serve as a foundational document that aligns educational initiatives that serve students pre-k through high school. It is based on five elements:

- All students are ready for kindergarten
- Close the achievement gap
- All students in third grade achieve grade level literacy
- All students attain career and college readiness before graduating from high school
- All students graduate from high school

St. Cloud Area Schools World's Best Workforce Plan serves as a blueprint that demonstrates how current district initiatives and plans work together in a concerted effort to prepare, engage, educate, empower and inspire learners in partnership with their surrounding community to be successful in today's and tomorrow's society.

A. Performance Measures: Goals and Benchmarks for Instruction and Student Achievement

St. Cloud Area School District has aligned all district and building student achievement and staff development goals toward the district's vision. Each of the components of this structure is described briefly below. Documents, which provide a detailed and comprehensive description of each element are referenced.

1. Strategic Plan 2014 – 2019: <http://tinyurl.com/lisu69so>

The Strategic Plan was developed during the 2013-2014 school year. Public input was sought through World Cafés where over 200 people participated in conversations about their hopes for the future of St. Cloud Area Schools. For those who were unable to attend a survey was available on the district website. After this data was compiled, a series of meetings and work sessions occurred throughout the school year. This included over 70 participants, which consisted of parents, community representatives, school board members, school staff, administration and students from all three high schools. This work resulted in the new strategic plan, which includes mission, core values, strategic objectives, strategies and end results that will guide all planning and decision-making as our district moves forward.

2. Integration/Equity Plan: <http://tinyurl.com/m6ctvrj>

Equity Plan Goals:

- Provide academic excellence
- Create respectful and welcoming school environments
- Offer staff development to increase cultural awareness
- Assist staff in meeting the needs of all learners

Equity Plan Actions:

- Offer a variety of enriching and culturally aware opportunities for students
- Provide Cultural Navigators, who support students directly in the classrooms and serve as a bridge between students and teachers, teachers and parents, and schools and home
- Partner with the Urban Leadership Academy through the University of Minnesota
- Implement Culturally and Linguistically Responsive Instruction
- Work with local businesses and organizations to support students and families
- Maintain the Parents in Action program, which enriches school/home communications
- Implement programs that specifically support increasing achievement for all students, especially students who are considered at-risk
- Reduce the achievement gap

Family Involvement Survey: A survey was administered in January 2014 to all families of students attending St. Cloud Area Schools. The purpose was to gauge the level of involvement and to gather information related to challenges that prevent families from participation. Results will be analyzed to determine next steps in alignment with strategies of the Strategic Plan.

Grade Level Student Achievement Benchmarks:

The St. Cloud Area School District understands the importance of assessment as a tool ‘for learning,’ when assessments are used to guide teachers in curriculum planning to best meet the needs of all students. It was determined that we could best do this with the STAR assessment tool, which replaces NWEA and reduces the overall testing time significantly. Due to the new assessment system, the assessment team will spend 2014-15 creating a comprehensive assessment system that will include benchmarking, progress-monitoring, alignment to state assessments and college and career readiness.

B. District Plan Components and Activities

St. Cloud Area School District holds itself accountable for continuous improvement to close the achievement gap while raising achievement for all students. St. Cloud Area School District is committed to using data to inform and focus improvement efforts.

The School Improvement Plan (SIP) serves two purposes:

- It is a tool that is used to assist school staff in their continuous school improvement efforts.
- It fulfills district, state and federal requirements, including requirements for Schoolwide Title I, Targeted Assistance and AYP / Needs Improvement Plans.

C. Assessing and Evaluating Student Progress

1. Multi-Tiered System of Support (MTSS)

http://stcloudisd742.mn.schoolwebpages.com/education/dept/dept.php?cms_mode=view§ionid=2328&

MTSS has provided the framework for assessment planning and evaluating student progress district-wide. Students who perform below grade level on benchmark assessments will be further screened to isolate specific skill deficits. Students who are placed in an intervention will be progress monitored to ensure accelerated growth. If accelerated growth isn't achieved, intervention plans will be modified.

3. Career and College Readiness Plan

St. Cloud Areas Schools are in the process of creating and implementing a Career and College Readiness Plan. Prior to or during their 8th grade school year, every student will start and review annually a personal learning plan which includes the following: guidance on rigorous academic scheduling, career pathways, 21st Century Skills, community partnership opportunities, and college and career experiential learning opportunities.

St. Cloud Area Schools currently serves 1600+ students in its English Learner Program. Programming includes the English Academy for new-to-country and new-to-English students as well as programming for students requiring less intensive English instruction. Students are instructed in a variety of models including classroom support, sheltered instruction, co-taught courses in the content area and specific English instruction. The goal of our program is to give students the tools they need to be successful in accessing grade-level curriculum. English Learners build academic vocabulary in order to ensure success in all areas of academic and community life.

D. Assessing and Evaluating Instruction and Curriculum

1. Curriculum & Instruction Review Process

St. Cloud Area School District employs a comprehensive system to periodically review and evaluate the effectiveness of all district curriculum and instruction. The primary goal of the District's curriculum review process is to develop a guaranteed and viable curriculum. A guaranteed and viable curriculum is one in which the agreed upon essential content and skills are covered within adequate instructional time. St. Cloud Area School District recognizes that a guaranteed and viable curriculum has a strong correlation to student achievement (Marzano, 2003).

The Curriculum Development Policy guides the continuous review and improvement of the District's curriculum and programs in order to provide a guaranteed and viable curriculum. This policy is still under review and will be linked once it is approved.

2. Curriculum Team

The Curriculum Team provides leadership for increasing student achievement through effective teaching. The team works with administrators and teachers on staff development, graduation standards, coordinated curriculum, assessment and effective teaching practices. The goal is for each student to have an appropriate, consistent, coordinated and challenging educational program.

E. Strategies for Improving Instruction and Curriculum & Student Achievement

1. Related Plans -The following list of previously noted plans have strategies for improving instruction, curriculum, and student achievement.

- MTSS
- District Annual Report & School Improvement Plans
- Curriculum Plan
- Strategic Plan
- Equity Plan
- Career & College Readiness Plan

2. District Staff Development

The District Staff Development Committee is charged with structuring professional development intending to improve instruction and ultimately student achievement. This committee is

comprised of teachers from all schools and various grade/subject areas throughout the district. In collaboration with the Curriculum Team and MTSS Facilitation team, this committee prioritized the staff development priorities for the 2013-14 and 2014-15 school years.

Professional development is also embedded in the 2013/2014 - 2014/2015 Curriculum Overview <http://tinyurl.com/CurriculumInstructionPlan>

3. Teacher Evaluation

St. Cloud Area School District will be utilizing the new teacher evaluation model starting in 2014-15. The new model was created during the 2013-14 school year by a committee comprised of teachers, principals, and district level administrators. The new model aligns with the new state statute regarding teacher evaluation. The goal of the teacher evaluation model is to develop teachers by working toward clear expectations. Teachers will set annual goals. Probationary teachers are formally observed three times per year during their first three years. Tenured teachers will be formally observed every three years. A summative evaluation will include elements of the observations that document standards of effective practice. It will also include longitudinal data on student engagement, and 35% will be based on student achievement. During years in which a formal observation is not taking place, teachers will participate in peer review. All teachers will participate in Learning Cohorts, and mentoring will be available for all new teachers. A system for improvement and discipline is in place to help teachers not meeting standards. The total evaluation system is supported through ongoing professional development.

4. Principal Evaluation

St. Cloud Area School District utilizes a principal evaluation model that aligns with the MN state statute. Goals are established in conjunction with a plan, principals are observed at least three times per year, and a summative conference and forms are completed. The rubrics for the evaluation are based on research, and an online system of record keeping and evidence collection is used. Principals are evaluated by the Superintendent/Assistant Superintendent on an annual basis. Survey data collected from staff and stakeholders is utilized as part of the reflective conference. School improvement plans are also considered in determining principal growth.

5. Literacy Plan: <http://tinyurl.com/ISD-Literacy-Plan>

St. Cloud Area School District's Literacy Plan details the focus on practices and strategies to ensure the success of all students in achieving reading proficiency by third grade. Although the

required plan by the state is for K-3 literacy, a sustained effort to create quality literacy rich environments in all schools and programs from birth through graduation exists. As part of the curriculum review process, new assessments, interventions, and curricular resources will be implemented beginning in the 2014-2015 school year. The Literacy Plan will be updated to reflect those changes.

F. Committees and Roles

1. District Advisory Committee: <http://tinyurl.com/mfk9z5p>

The District Advisory Committee is called the Core Planning Team (CPT) from the Strategic Planning Process. CPT is composed of community members, parents, teachers, administrators and students. The primary purpose of the committee is to ensure active community participation in all phases of planning and improving the instruction and curriculum in St. Cloud Area Schools.

Members:

2. The Curriculum and Instruction Advisory Committee (CIAC)

CIAC is a community-based committee that provides input and feedback to the school district regarding the effectiveness of its educational programs as well as reviewing curriculum on a monthly basis. The membership includes Curriculum team members, administrators, a board member and parents from every school in our district.

3. Other Committees

Some previously described committees are MTSS Steering and Facilitation, Curriculum Team, Vertical Teams, District Staff Development Team, and Building Instructional Leadership Teams.

Additional Report Requirements:

To meet the report requirements 742's Teaching and Learning Department will:

-Submit an electronic summary to the Commissioner of the Minnesota Department of Education by October 1 of each year.

-Present to the school board for approval prior to posting on district web site: Approved on September 25, 2014

-Public Hearing Fall of 2014: Public School Board Presentation on August 18, 2014

-Place the report on the district's web page.
